Preface
by J. L. Kaster VII
In memoriam: Dr. Clarence James Goodnight IX

Part One: Taxonomy and Evolution
1. Comments on the classification of the Clitellata
by P. C. Holt 1
2. Did the lumbriculids provide the ancestors of the branchiobdellidans, acanthobdellidans and leeches?
by R. O. Brinkhurst & S. R. Gelder 7
3. Phylogeny and origins of Enchytraeidae
by K. A. Coates 17
4. Preliminary investigations of hybridization/reticulate evolution in *Guaranidrilus* (Enchytraeidae: Oligochaeta)
by K. A. Coates 35
5. Preliminary report on the Enchytraeidae (Oligochaeta) of West Florida
by B. Healy 47
6. New species of *Phallodrilus* (Oligochaeta, Tubificidae) from caves of northern Spain and southwestern France
by P. Rodriguez & N. Giani 57

Part Two: Anatomy, Ultrastructure and Physiology
7. Neurobehavioral specializations for respiratory movements and rapid escape from predators in posterior segments of the tubificid *Branchiura sowerbyi*
by C. D. Drewes & M. J. Zoran 65
8. Different models of tubificid spermatozeugmata
by M. Ferraguti, G. Grassi & C. Erséus 73
9. Body wall organization in enchytraeids
by R. Valvassori, M. de Eguileor, G. Lanzavecchia & G. Scari 83
10. Morphogenesis of body wall muscle fibers in *Enchytraeus minutus*
by G. Lanzavecchia, M. de Eguileor, R. Valvassori, L. Di Lernia & C. Cambiaso 91
11. Histochemical analysis of oligochaete body wall
by M. de Eguileor, S. Daniel, F. Cotelli, R. Valvassori & G. Lanzavecchia 99
12. T-system in muscles of microdriles
by M. de Eguileor, R. Valvassori, G. Lanzavecchia & L. Di Lernia 109
13. Histophysiology of digestion and observations on the structure of the alimentary canal in the ectosymbiont *Chaetogaster limnaei limnaei* Baer, 1827 (Annelida: Oligochaeta)
by S. R. Gelder 115

Part Three: Life Histories and Population Dynamics

14. Population analysis in mass cultures of *Tubifex tubifex*
by C. Bonacina, G. Bonomi & C. Monti 127
15. Density-dependent processes in cohorts of *Tubifex tubifex*, with special emphasis on the control of fecundity
by C. Bonacina, G. Bonomi & C. Monti 135
16. Cohort cultures of *Tubifex tubifex* forms
by A. Paoletti 143
17. Biological studies upon *Enchytraeus variatus* Bouguenec & Giani 1987 in breeding cultures
by V. Bouguenec & N. Giani 151
18. Population dynamics of *Tubificoides amplivasatus* (Oligochaeta, Tubificidae) in the Oresund, Denmark
by C. Erséus & R. J. Diaz 167
19. Intrinsic and extrinsic variables controlling the productivity of asexual populations of *Nais* spp, (Naididae, Oligochaeta)
by J. Juget, V. Goubier & D. Barthélémy 177

Part Four: Commmunity Studies and Pollution Biology

20. Meiobenthic naidid and aelosomatid oligochaetes from the profundal zone, and relations of species to eutrophication
by J. Särkkä 185
21. Observations of predator–prey interaction on dispersal of an oligochaete prey, *Limnodrilus hoffmeisteri*
by J. L. Kaster 191
22. Pollution and tidal benthic communities of the James River Estuary, Virginia
by R. J. Diaz 195
23. The role of oligochaetes in the management of waters
by P. F. M. Verdonschot 213
24. Colonization of a manmade gravel bar by Oligochaeta
by C. R. Bingham & A. C. Miller 229
25. Aquatic toxicity test for enchytraeids
by J. Roembke & Th. Knacker 235
26. Acute and chronic effects of an anionic surfactant on some freshwater tubificid species
by S. Casellato & P. Negrisolo 243
